

# UNISDR Science and Technology Conference

Mobilizing science to implement the Sendai Framework

27-29 January 2016

Geneva, Switzerland

# UNISDR

The United Nations Office for Disaster Risk Reduction

<b>Work stream 1: Scientific and technical partnership to support the implementation of the Sendai Framework</b>		
1	<b>Australian Stakeholder Attitudes to Disaster Risk Reduction Education and Innovative Strategies to Promote Effectiveness and Scaled Implementation</b> <i>Barbara Kelly, CQUniversity</i>	31 <b>Comparison between lecture and teletriage in nursing students</b> <i>Seyed Habibollah Kavari, University of Social Welfare and Rehabilitation Sciences (USWR), Tehran, Iran</i>
2	<b>Global Disaster Resilience Centre, University of Huddersfield, UK</b> <i>Dilanthi Amaratunga, University of Huddersfield, UK</i>	32 <b>Disability and Disasters: Empowering people and building resilience to risk in Southeast Asia</b> <i>Emma Calgaro, University of Sydney</i>
3	<b>Strengthening Regional Science and Technology Cooperation for SFDRR Implementation: Opportunities and Challenges in South Asia</b> <i>Jyotiraj Patra, British High Commission</i>	33 <b>SEI Initiative on Transforming Development and Disaster Risk</b> <i>Frank Thomalla Stockholm Environment Institute</i>
4	<b>Disaster research at the London School of Hygiene and Tropical Medicine</b> <i>Sari Kovats, LSHTM</i>	34 <b>The Japan Academy of Nursing Science and World Academy of Nursing Science, Integrate and Fuse Domains of Cure and Care into Ensuring Human Security</b> <i>Hiroko Minami, World Academy of Nursing Science</i>
5	<b>The Manila Observatory (MO) and the International Research Initiative on Adaptation to Climate Change (IRIACC) - Coastal Cities at Risk (CCaR)</b> <i>Ma. Antonia Yulo-Loyzaga, Manila Observatory</i>	35 <b>International Federation for Information Processing and its Domain Committee on Information Technology in Disaster Risk Reduction</b> <i>Dimiter Velez, International Federation for Information Processing</i>
6	<b>International Partnerships of Local Authorities for Disaster Risk Reduction</b> <i>Alan Avi Kirschenbaum, Local Authorities Confronting Disasters &amp; Emergencies</i>	36 <b>Bridging science and practice of risk-sensitive urban planning: the role of UNISDR's Urban Planning Advisory Group</b> <i>Ricardas Sliuzas, University Twente</i>
7	<b>The American Red Cross Scientific Advisory Council: Providing evidence-based guidance since 1999</b> <i>Steven Jensen, Massey University</i>	37 <b>Necessity of Global Research Platform on Nuclear Disaster Risk Reduction and Recovery</b> <i>Shunichi Yamashita, Nagasaki University</i>
8	<b>Indicator based Approach on Role of Science Technology in Disaster Risk Reduction in Asia</b> <i>Rajib Shaw, Kyoto University</i>	38 <b>Innovations in Partnerships for Host Nation Empowerment in Disaster Risk Reduction and Response</b> <i>Rebekah Yore, Rescue Global</i>
9	<b>The RHISE Group - Researching the Health Implications of Seismic Events A collaborative research structure emerging from the Christchurch earthquakes.</b> <i>Michael Ardagh, University of Otago Christchurch</i>	39 <b>Protecting lives, enhancing compliance and reducing public concern through cognitive linguistic communication</b> <i>Gabriella Rundblad, Centre for Language, Discourse and Communication</i>
10	<b>Deltares supporting the Scientific and Technical Partnership</b> <i>Lydia Cumiskey, Deltares</i>	40 <b>Skill Development as a means to "Build Back Better" in Disaster Mitigation, Recovery and Rehabilitation</b> <i>Bhavani R. Rao, Amrita University</i>
		62 <b>PLACARD: building a platform for CCA and DRR cooperation by 2020</b> <i>Mario Pulquerio, FFCUL</i>
		63 <b>Building bridges for a better global flood risk management - the Global Flood Partnership</b> <i>Feyera Hirpa, European Commission Joint Research Centre</i>
		64 <b>Research and capacity building for Disaster Risk reduction and Climate Change Adaptation at The University of the South Pacific - Importance of partnerships</b> <i>Helene Jacot Des Combes, The University of the South Pacific</i>
		65 <b>Disaster Resilience Integrated Framework for Transformation (DRIFT)</b> <i>Bernard Manyena, University of Manchester</i>
		66 <b>GEM Foundation: Improving knowledge of earthquake risk worldwide</b> <i>John Schneider, GEM (Global Earthquake Model) Foundation</i>
		67 <b>IAP and Disaster Risk Reduction</b> <i>Peter McGrath InterAcademy Partnership</i>
		68 <b>Building a More Resilient Nepal-The Utilisation of the Resilience Scorecard for Kathmandu, Nepal following the Gorkha Earthquake of 2015</b> <i>Michael Whitworth, AECOM</i>
		<b>Work stream 2: Understanding disaster risk, risk assessment and early warning</b>
		69 <b>Strengthening Disaster Health Information Systems as a Basis for Improved Science</b> <i>Kristine Gebbie, World Association for Disaster and Emergency Medicine</i>
		70 <b>A collaborative approach to disaster training and education</b> <i>Karen Hammad, Torrens Resilience Institute</i>

11	<b>Geology for Global Development: Mobilising and equipping young geologists to engage in disaster risk reduction</b> <i>Joel Gill, Geology for Global Development</i>	41	<b>Public Health England – working to reduce the impact of hazards both nationally and globally</b> <i>Virginia Murray, Public Health England</i>	71	<b>“Disaster Risk Management Knowledge Centre”– Pooling knowledge and networks in disaster risk management</b> <i>Delilah Al Khudhairy, European Commission - Joint Research Centre</i>
12	<b>Disaster Mental Health Risk Reduction – An Upstream Paradigm Shift for Disaster Mental Health</b> <i>Lennart Reifels, University of Melbourne / Free University of Berlin</i>	42	<b>The Global Wildland Fire Network: A UNISDR Thematic Platform to Address Vegetation Fires, Global Change and Disaster Risk Reduction</b> <i>Johann Georg Goldammer, The Global Fire Monitoring Center (GFMC)</i>	72	<b>Building Resilience to Climate Change and Disasters in the Pacific Region: Project-based Strategies for Disaster Risk Reduction</b> <i>Paul Taylor, Pacific Community - Geoscience Division</i>
13	<b>An integrated, collaborative approach to urban resilience</b> <i>Stephen Passmore, The Ecological Sequestration Trust</i>	43	<b>The European Centre for Medium-Range Weather Forecasts: global medium-range ensemble weather forecasts supporting decision-making in disaster risk management</b> <i>Ervin Zsoter, ECMWF</i>	73	<b>Resilient Glasgow: A Scottish Case Study of Implementing the Sendai Framework</b> <i>Eleanor Murtagh, University of Strathclyde</i>
14	<b>Partnership: A New 'Technology' in Disaster Risk Reduction</b> <i>Edson Munsaka, National University of Science and Technology</i>	44	<b>Enhancing Resilience via Engaging Spontaneous Volunteers in the Official Response System</b> <i>Ayham Fattoum, Alliance Manchester Business School</i>	74	<b>Global Centre for Disaster Statistics -Connecting UN, Academia and Policy Makers in countries to support the implementation of the Sendai Framework-</b> <i>Yuichi Ono, International Research Institute of Disaster Science, Tohoku University</i>
15	<b>Next Generation Core Competencies for Disaster Risk Management</b> <i>Shirley Feldmann-Jensen, California State University Long Beach</i>	45	<b>State of art of DRR’s research in Brazil and the proposal of a Brazilian Research Network in Disaster Risk Reduction</b> <i>Mário Freitas, Santa Catarina State University - Brasil (SC)</i>	75	<b>Building Community Health Resilience to Disasters: A Multistakeholder Partnership Approach</b> <i>Emily Ying-Yang Chan, Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response (CCOUC), The Chinese University of Hong Kong</i>
16	<b>Earthquake Disaster Risk Reduction Promoted by National Institute URBAN-INCERC and European Center for Buildings Rehabilitation - ECBR, Bucharest, Romania</b> <i>Emil Sever Georgescu, The National R-D Institute URBAN-INCERC</i>	46	<b>Partnerships for a better implementation of ecosystem-based disaster risk reduction (eco-DRR) and adaptation (EbA): linking science, policy and practice</b> <i>Camille Buyck, International Union for Conservation of Nature</i>	76	<b>The Role of SASPARM Project on Building the Resilience of the Palestinian Community to Disasters</b> <i>Jalal Al Dabbeek, An Najah National University</i>
17	<b>The Royal Society: romoting science for disaster risk reduction</b> <i>Sally Tyldesley, The Royal Society</i>	47	<b>Building a Regional Humanitarian Partnership Team (RHPT) for enhancing Emergency Response and DRR in the South West Indian Ocean Sub-Region</b> <i>Stephanie Hodge, United Nations Development Programme, Comoros</i>	77	<b>Managing Risks? Early Warning Systems for Climate Change Related Hazards</b> <i>Zinta Zommers, UNEP</i>
18	<b>King's Centre for Integrated Research on Risk and Resilience (CIRRR)</b> <i>Mark Pelling, King's College London</i>	48	<b>The Emergence of a Globalized System for Disaster Risk Management and Challenges for Appropriate Governance</b> <i>Steven Jensen Massey University</i>	78	<b>Urban safety through the eyes of cultural heritage</b> <i>Hisila Manandhar, Kathmandu Valley Development Authority</i>
19	<b>The Earthquakes without Frontiers research project and its role in resilience building</b> <i>Susanne Sargeant, British Geological Survey</i>	49	<b>“The Youth Voice” - Disaster and Development Society (DDS)</b> <i>Mark-Ashley Parry, Disaster and Development Society</i>	79	<b>Breaking the cycle of hunger and disaster risk: understanding hot spot regions and causal feedbacks</b> <i>Matthias Garschagen, United Nations University</i>
20	<b>Resilience Building – Local Partnerships (Contribution for Development of a Tsunami Monitoring and Early Warning System)</b> <i>Carlos Rabaçal, Setúbal Municipality</i>	50	<b>“Global Human Settlement expert working group”– advanced space technologies in support to international frameworks</b> <i>Martino Pesaresi, European Commission - Joint Research Centre</i>	80	<b>Disaster risk reduction efforts and factors affecting flood disaster management: A case study of Katakwi district-Olupe and Ngariam Camps.</b> <i>Skylar Jayden Dembe, Green World Uganda</i>
21	<b>Landslides in Equatorial Africa: Identifying culturally, technically and economically feasible resilience strategies</b> <i>Jan Maes, KU Leuven/VUB</i>	51	<b>Disaster preapredness and emergency management on campus: the Multi-Hazards Program by the Asscoiation of Pacific Rim Universities (APRU)</b> <i>Takako Izumi, IRIDeS, Tohoku University</i>	81	<b>Strategies for interorganisational collaboration in disaster prevention</b> <i>Marie Bartels, Technische Universität Berlin</i>
22	<b>Disaster and Development Network (DDN): Partnerships for strengthening resilience to disasters through local community involvement</b> <i>Andrew Collins, Northumbria University</i>	52	<b>Disaster Robotics for the Disaster Risk Reduction</b> <i>Satoshi Tadokoro, Tohoku University / IEEE Robotics and Automation Society</i>	82	<b>The Search of the Liquid Treasure: safe water supply in disaster scenario</b> <i>Marta Vasconcelos Pinto, Escola Superior de Tecnologia da Saúde de Coimbra, Coimbra Health School</i>

23	<b>Earthquake Forecasting: From Research To Practical Application</b> <i>Michio Hirai, Information Systems</i>	53	<b>The Global Volcano Model network: collaborative volcanology for building a global understanding of volcanic hazard and risk</b> <i>Melanie Duncan, British Geological Survey</i>	83	<b>Post-nuclear disaster evacuation and survival amongst elderly people in Fukushima: a comparative analysis between evacuees and non-evacuees</b> <i>Shuhei Nomura, Imperial College London</i>
24	<b>The Dutch National Risk Assessment: An All Hazard strategy connecting multidisciplinary science and policy</b> <i>Marcel G. Mennen, National Institute for Public Health and Environment (RIVM)</i>	54	<b>UNESCO and Disaster Risk Reduction</b> <i>Jair Torres, UNESCO</i>	84	<b>The uses of catastrophe modelling for Disaster Risk Reduction</b> <i>Daniel Stander, RMS</i>
25	<b>Healthier, safer and resilient communities and countries: the role of health partnerships in strengthening science and evidence for disaster risk management</b> <i>Jonathan Abrahams, World Health Organization</i>	55	<b>Probability Uncertainty and Risk in the Environment Knowledge Exchange Network</b> <i>Vera Hazelwood, Smith Institute for Industrial Mathematics and System Engineering</i>	85	<b>Mitigating drought risk through better seasonal management of groundwater supplies from low storage aquifers in Africa</b> <i>Rosalind Cornforth, Walker Institute</i>
26	<b>Disaster bioethics: A COST Action network addressing ethical issues in disasters</b> <i>Dónal O'Mathúna, Dublin City University</i>	56	<b>Global Alliance for Disaster Risk Reduction and Resilience in the Education Sector (GADRRRES)</b> <i>Jair Torres, UNESCO</i>	86	<b>Rapid Disaster Risk Assessment of Coastal Communities: A Case Study of Mutiara Village, Banda Aceh, Indonesia</b> <i>Shesh Kafle, Disaster and Climate Change Study Centre, Nepal (DCCSC Nepal)</i>
27	<b>Implications of Sendai Framework of Disaster Risk Reduction for South Asia: Geneva Follow-up Action by Transdisciplinary Academic Community for Policy Briefing</b> <i>Suraj Mal, Department of Geography, Shaheed Bhagat Singh College, University of Delhi, India</i>	57	<b>UK Government – Natural Hazards Partnership</b> <i>Ian Lisk, Met Office</i>	87	<b>Building Resilience Through Disaster Recovery: Aceh 10 Years On from the Tsunami</b> <i>Michael Boyland, Stockholm Environment Institute</i>
28	<b>Disaster Preparedness and Response: How Public Libraries Can Partner with Local Agencies to Meet Community Needs</b> <i>Christine Hagar, San Jose State University</i>	58	<b>Roadmap for European disaster resilience network for education - ANDROID</b> <i>Richard Haigh, University of Huddersfield, UK</i>	88	<b>Probabilistic assessment of life-lost years due to premature mortality because of earthquakes in Latin America and the Caribbean</b> <i>Mario Andres Salgado-Gálvez, International Center for Numerical Methods in Engineering</i>
29	<b>Multidimensional Approach to Integration of Disaster Reporting Systems: Leveraging on Strengths, Openness, Trust in Project Agos and Project eBayanihan</b> <i>Maria Regina Justina Estuar, Ateneo de Manila University</i>	59	<b>Quantification of Resilience in Earthquake Engineering</b> <i>Mohsen Ghafory-Ashtiany, Iranian Earthquake Engineering Association</i>	89	<b>Modelling of sea-level rise, inundation and effects on Bonriki freshwater lens, Tarawa, Kiribati</b> <i>Amandine Bosserelle, Secretariat of the Pacific Community</i>
30	<b>Improving Disaster Risk Management: Considerations for advancing policy and operational frameworks for Unmanned Aerial Vehicles and other Advanced Technologies</b> <i>Steven Jensen, Massey University</i>	60	<b>Post-disaster Emergency Communication for School Evacuation Shelters: A Spatial Analysis of the Sendai Municipal Disaster Prevention Radio System</b> <i>Takashi Oda, Miyagi University of Education, Sendai</i>	90	<b>Making waves: The politics of tsunami rehabilitation and recovery in the Andaman Islands</b> <i>Sophie Blackburn, King's College London</i>
		61	<b>Resilient urban planning and water risk: The city of Rome flood mapping updating program</b> <i>Fernando Nardi, Università per Stranieri di Perugia</i>	91	<b>Inter-organizational network modelling for assessing tsunami early warning structure in West Sumatera</b> <i>Mizan Bustanul Fuady Bisri, Kobe University</i>
