

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, SEPTEMBER 9, 2003 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate in the Northern California Area and light elsewhere. Nationally, 175 new fires were reported. Five large fires were contained, one each in the Northern Rockies and Northwest Areas and three in the Northern California Area. Very high to extreme fire indices were reported in Arizona, California, Idaho, Montana, New Mexico, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Williams-Rhodes) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, and Little Salmon Creek Complex. An Area Command Team (Ribar) is assigned to manage Mineral-Primm, Fish Creek Complex and Cooney Ridge.

MYRTLE CREEK, Idaho Panhandle National Forest. A Type 1 Incident Management Team (Frye) is assigned. This fire is in logging slash, mixed conifer and brush, five miles northwest of Bonners Ferry, ID. Light precipitation, cooler temperatures and higher humidity moderated fire behavior. Surface fire, individual and small group tree torching and short upslope runs were observed. Structure protection is in place for 66 residences and one commercial property.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident in timber is 19 miles east of Kalispell, MT and is comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck and Blackfoot Lake fires. Precipitation limited fire activity to smoldering in heavy fuels. Structure protection is in place for 55 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. All the fires in the complex have burned together. Rain temporarily halted the fire spread. Active fire behavior was observed for a portion of the evening. Structure protection is in place for 20 residences.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is in sub-alpine fir with downed fuels, 14 miles northwest of Polebridge, MT. Fire activity was minimal.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Double Mountain 1, Double Mountain 2, Riverview 1, Riverview 2 and Rampage, is in timber, 15 miles southeast of West Glacier, MT. Rain temporarily halted fire spread. Active fire behavior was observed for a portion of the evening. Structure protection is in place for 127 residences.

LITTLE SALMON CREEK WILDLAND FIRE COMPLEX, Flathead National Forest. A Fire Use Management Team (Rath) is assigned. This complex is 47 miles southeast of Kalispell, MT in the Bob Marshall Wilderness. The incident, comprised of the Gordon, Molly Creek, Leota Oak, Gyp, Crimson, High, Mid and Some Creek fires, is in ponderosa pine and mixed conifer. Fire spread was minimal. Structure protection is in place for seven residences.

LITTLE SALMON CREEK FIRE USE COMPLEX, Flathead National Forest. A Fire Use Management Team (Rath) is assigned. This complex is 47 miles southeast of Kalispell, MT in the Bob Marshall Wilderness. This incident, comprised of the comprised of the Little Salmon, Pagoda, Independence Park, Lime Creek, Casey Creek, Little Hammer, Salmon Point and South Spud fires, is in ponderosa pine and mixed conifer and is being managed to accomplish resource objectives. Fire spread was minimal. Structure protection is in place for one residence. This will be the last narrative unless significant activity occurs.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Cable) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Rain temporarily halted fire spread. Active fire behavior was observed for a portion of the evening. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Saleen) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Rain temporarily halted fire spread. Active fire behavior was observed for a portion of the evening. Structure protection is in place for three commercial properties.

CRAZY HORSE, Flathead National Forest. This fire is in mixed conifer with heavy dead and down fuels, eight miles southwest of Condon, MT. Rain fell intermittently throughout the day. A contain/confine strategy using natural barriers is being implemented on the west flank in the Mission Mountains Wilderness.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. Cool temperatures, rain and high humidity levels moderated fire behavior. Smoldering continued in areas sheltered from the precipitation. Structure protection is in place for 195 residences and one commercial property.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kechter) is assigned. This incident, comprised of the Cooney Ridge, Gratton Gulch, Gilbert and Strawberry fires, is in timber, 11 miles east of Florence, MT. Rain fell over the fire area. Fire activity was limited to smoldering ground fire. Structure protection is in place for 100 residences.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This incident, comprised of the Mineral-Primm, Stewart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. The Mineral-Primm fire has spread to the north and northeast onto the Flathead Indian Reservation. Cooler temperatures and rain lessened fire activity. Torching, spotting and short crown runs continued to occur. Fire remained active in the interior green islands of the Boles Meadow fire.

LINCOLN COMPLEX, Helena National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Hoff), Lewis and Clark County Sheriff's Department and Powell County Sheriff's Department. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Significant progress was made mopping up on both fires due to the precipitation received over the area. Structure protection is in place for 30 residences.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This incident, comprised of the Beaver Lakes, Siah Lake, Pleasant, Rhodes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Fire activity was minimal.

SLIM'S COMPLEX, Nez Perce National Forest. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Fire activity was minimal.

SAPP, Nez Perce National Forest. This incident, comprised of the Sapp and Richardson fires, is in timber and grass, 22 miles south/southeast of Elk City, ID. Sapp and Richardson fires were smoldering on interior islands. Structure protection is in place for two residences.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A transfer of command from Cones' Fire Use Management Team to the local forest will occur today at 1800. This incident, comprised of 37 fires, is in timber, 41 miles southwest of Lolo, MT. There was no appreciable growth due to general wetting rain received over the complex. All fires in this complex are suppression fires under confinement strategy.

EAST COMPLEX, Yellowstone National Park. This incident, comprised of the East and Grizzly fires, is four miles east of Fishing Bridge Junction, WY. Fire activity was minimal due to precipitation over the area.

BRUNDAGE, Gallatin National Forest. A transfer of command from Cook's Fire Use Management Team to a Type 4 organization will occur today at 0900. This fire is in mixed conifer, ten miles northeast of Gardiner, MT. Fire activity was minimal due to precipitation received. Area closure remains in effect.

GOLD 1, Bitterroot National Forest. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Minimal fire activity was observed.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is in timber, three miles southwest of Lakeview, MT. No new information was received. This will be the last report unless significant activity occurs.

CNF = Custer National Forest

NORTHWEST AREA LARGE FIRES:

NEEDLE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Berndt/Andring) is assigned. A Type 1 Incident Management Team (Hart) will assume command today at 0600. This fire is in timber, 22 miles northwest of Winthrop, WA. The fire was burning down both sides of the Methow River and into Trout Creek. All hiking trails in the area have been closed. Structure protection is in place for 100 residences.

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Martin) is assigned. On 09/09, an Area Command Team (Greenhoe) will assume command of that portion west of the Cascade Divide. This complex, comprised of the Booth and Bear Butte fires, is in timber with heavy ground fuels, 14 miles west of Sisters, OR. Low to moderate fire behavior was observed.

MAPLE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Halloway/Reed) is assigned. This fire is in timber, 30 miles north-northwest of Leavenworth, WA. Fire growth was generally to the south along the east flank.

BULL SPRINGS 2, Umatilla National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This fire is in timber, 24 miles south of Ukiah, OR. Snags and heavy fuel concentrations continue to burn.

SQUARE LAKE FIRE, Okanogan/Wenatchee National Forest. This fire is in continuous old growth forest and mixed conifer with heavy dead and downed fuels, 20 miles west of Leavenworth, WA. No new information was reported. This will be the last report unless significant activity occurs.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. Weather hampered the monitoring of the fire.

MOUNT RAINIER COMPLEX, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in heavy timber with heavy downed fuels, 13 miles northeast of Packwood, WA. The complex received light rain and experienced minimal activity. A portion of the northern loop trail remains closed.

MINERAL PARK, Mt Baker-Snoqualmie National Forest. This fire is in heavy timber, brush and deep duff, 16 miles southeast of Marblemount, WA. Unable to monitor the fire due to inclement weather. No further information was received.

LOST LAKE, Gifford Pinchot National Forest. This fire is in brush and timber, seven miles east/southeast of Packwood, WA. The fire spread from brush into sub-alpine timber and backed down slope through timber.

NES = Northeast Dispatch Center, Washington Department of Natural Resources

NORTHERN CALIFORNIA AREA LARGE FIRES:

COVELO COMPLEX, Mendocino National Forest. This fire is in timber, 15 miles east of Covelo, CA. Small runs from rolling material were observed.

GRINDSTONE COMPLEX, Mendocino National Forest. A Type 1 Incident Management Team (Vail) is assigned. This complex, comprised of 39 confirmed fires, is in chaparral and mixed conifer, 30 miles west of Willows, CA. Occasional torching coupled with a moderate rate of spread was observed. Fire behavior and weather was challenging suppression efforts. Structure protection is in place for 11 residences.

SMOKEHOUSE COMPLEX, Mendocino National Forest. A Type 2 Incident Management Team (Szczepanik) is assigned. This complex is in brush with scattered timber and grass, 15 miles northeast of Potter Valley, CA. There was no fire spread on any of the fires in the complex, with the exception of the Logan fire, where creeping was observed. Structure protection is in place for 120 residences.

SHF COMPLEX, Shasta-Trinity National Forest. This fire is in timber, 50 miles southwest of Redding, CA. Forty-six fires were declared out. All remaining fires were staffed or in patrol status. Fire behavior was minimal.

HUMBOLDT LIGHTNING SERIES, Humboldt-Del Norte Unit, California Department of Forestry & Fire Protection. This fire is in timber and logging slash, near Fortuna, CA. Fire behavior was minimal. Extreme inaccessibility caused delays in reaching the Canoe and Honeydew fires.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

BRIDGE, San Bernadino National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Domanski), Running Springs Fire District, San Bernardino County Fire Department, and the San Bernardino County Sheriff's. The fire is in grass and brush, with a timber component in the upper reaches of the watershed. North and east flanks continued to have smokes along uncontained edge in heavy, inaccessible fuel beds. Highway 330 remains closed. A voluntary evacuation order is in place for the communities of Smiley Park, Running Springs, Nob Hill, Enchanted Forest and Fredalba. Structure protection is in place for 1,500 residences.

MUD, Stanislaus National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is in timber, 5 miles southeast of Bear Valley, CA. Moderate fire spread to the east was observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

STF = Stanislaus National Forest

YNP = Yosemite National Park

KNP = Sequoia & Kings Canyon National Park

OUTLOOK:

Weather Discussion: Another weather system will spread rain into Oregon, Washington, Idaho and Montana and southward into northern California and the northern Great Basin. Showers are also expected over portions of the Southwest and Rocky Mountain areas.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHERN ROCKIES AREA Much cooler with occasional showers and gusty winds.	Idaho: 55 to 65 Montana: 65 to 75 North Dakota: 80s	Idaho: 35 to 50% Montana: 35 to 50% North Dakota: 35 to 50%	Idaho: West at 10 to 20 mph. Montana: Westerly at 10 to 20 mph, gusts to 30 mph North Dakota: Southeast to southwest at 15 to 25 mph, with higher gusts.
NORTHWEST AREA Mostly cloudy. Areas of rain.	Cool, mostly 50s and 60s.	Elevated humidity: Mostly at or above 50% west of the Cascades; at or above 40% east of the Cascades.	Breezy, particularly east of the Cascades. Generally westerly at 5 to 12 mph. To 20 mph east of Cascades.
ROCKY MOUNTAIN AREA Widespread showers and a few thunderstorms over western Colorado, with scattered mainly afternoon showers over Wyoming.	Highs 60s and 70s western portions, with lower to mid 80s in the eastern sections.	15 to 30%, except 30% to 45% in western Colorado.	Westerly 10 to 20 mph over western sections, with a variable direction of 10 to 20 mph over eastern sections.
NORTHERN CALIFORNIA AREA Cloudy to partly cloudy with showers. Most precipitation will be in the north.	60s at higher elevations, and 70s at lower elevations.	30 to 40%	Southwest to west 6 to 12 mph gusts. 18 to 24 mph with gusts of 35 to 40 mph over the higher elevations..
SOUTHERN CALIFORNIA AREA Morning coastal low clouds and fog into the coastal valleys, otherwise mostly sunny.	65 to 75 coastal areas. 70 to 85 in the mountains. 80 to 90 in the valleys. 85 to 95 in the upper desert. 95 to 105 in the low desert.	15 to 25% desert. 20 to 30% mountains. 25 to 40% valleys. 50 to 70% coast.	Southwest to northwest 10 to 20 mph with higher gusts in the afternoon.
EASTERN GREAT BASIN Idaho, Bridger-Teton: Cool with scattered showers, snow showers above 7000 feet. Utah, Arizona Strip: Partly to mostly cloudy with isolated to scattered showers and thunderstorms.	Idaho, Bridger-Teton: 43 to-55 in the mountains, 55-68 in the valleys. Utah and Arizona Strip: 55 to 75 in northern Utah, 72 to 92 in southern Utah and the Arizona Strip.	Idaho, Bridger-Teton: 30 to 55% in the mountains, 22 to 40% in the valleys. Utah, Arizona Strip: 25 to 45% in the mountains, 18 to 35% in the valleys.	Idaho, Bridger-Teton: southwest 5 to 15 mph. Eastern Idaho: variable 5 to 15 mph. Utah, Arizona Strip: southwest 10 to 25 mph.
EASTERN AREA Partly cloudy and breezy over Minnesota, slight chance of thunderstorms	75 to 85 across Minnesota	35 to 45% over parts of Minnesota.	South to southwest winds increasing to 15 to 30 mph across the western two thirds of Minnesota, 10 to 20 mph over eastern Minnesota and far western Wisconsin

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

SAFETY ZONES

A safety zone is a location where the threatened firefighter can find adequate refuge from an approaching fire.

- What is the difference between a safety zone and a deployment site?
 - The safety zone is the area where a firefighter can survive without using a fire shelter. The deployment site is used when fire conditions are such that escape routes and safety zones have been compromised.

- How do you identify a good safety zone?
 - Consider the distance from the escaped fire as well as topography, winds, fire behavior, and fuels in the area.
 - The best locations are usually “in the black;” those with a minimum of, or devoid of, ground/aerial vegetation; or large bodies of water.
 - Size is sufficient for all present resources with a minimum distance from fire of at least four times the maximum flame length.
 - Location is scouted and marked well for visibility at all times.
 - Location has been reassessed in relation to line work progress, fatigue, changes in fire behavior, and arrival of additional resources.
