

AERIAL FIRE FIGHTING 2023

LAUNCHING

AERIAL FIREFIGHTING 2023

PACIFIC NORTHWEST WILDFIRE
CONFERENCE AND EXHIBITION
3-4 APRIL 2023
SEATTLE, WASHINGTON USA

Supported by:

"The inaugural Pacific Northwest Wildfire Conference will be held in Seattle, Washington. This strategic conference and exhibition will take place April 3 and 4, 2023. The event will be the first Pacific Northwest focused wildfire conference, including live and static demonstration opportunities, and a focused two-day conference agenda featuring regional State leaders, key Federal stakeholders, as well as local fire services. The Pacific Northwest Wildfire Conference will be an integral event in terms of reporting best practices, sharing resources for prevention, suppression, and recovery, and understanding the opportunities provided by the latest innovations and technologies."

Hilary Franz, Commissioner of Public Lands, Washington State

Tangent Link, in partnership with Commissioner of Public Lands Hilary Franz and Washington Department of Natural Resources, are delighted to invite all stakeholders to this first-of-its-kind event in the Pacific Northwest. Elected officials, policy makers and leadership of the region's land and wildfire management agencies are encouraged to attend.

**AERIAL FIREFIGHTING ASIA PACIFIC (AFFAPAC)
CONFERENCE AND EXHIBITION
2-3 AUGUST 2023
NSW RURAL FIRE SERVICE TRAINING ACADEMY
DUBBO, REGIONAL AIRPORT, NSW AUSTRALIA**

Supported by:

NSW RURAL FIRE SERVICE

Tangent Link, in partnership with the NSW Rural Fire Service (NSWRFS), look forward to welcoming aerial firefighting and aerial emergency response professionals to Australia after a long absence. Taking place at the NSWRFS Training Academy, dedicated to improving the skills and knowledge relied on when responding to bushfires and managing emergencies, AFFAPAC will also include sessions on aerial search and rescue capabilities as well as opportunities for aircraft static displays.

AFFAPAC, a 2 day conference and supporting exhibition, provides an ideal opportunity to re-connect with Australia's State and Federal firefighting and emergency service sectors with representatives from the wider international government, military and commercial aerial firefighting communities also expected to attend.

"AFFAPAC23 provides a valuable assembly point for us to come together to develop and promote international best practice in this field to boost our emergency response capability. I look forward to joining you for lively debate and valuable outcomes for, not only our services, but the communities we serve."

Commissioner Rob Rogers

Commissioner Rob Rogers, AFSM, New South Wales Rural Fire Service.

Commissioner Rob Rogers, AFSM, NSWRFS and his team look forward to connecting with you and your colleagues during AFFAPAC23 as do the team from Tangent Link.

**AFF EUROPE CONFERENCE & EXHIBITION
16-17 OCTOBER 2023
ATHENS, GREECE**

Supported by:

HELLENIC REPUBLIC
Ministry for Climate Crisis
and Civil Protection

The Tangent Link Aerial Firefighting series returns to Greece for 2023, the leading event for Aerial Firefighting professionals in Europe. The two-day conference and exhibition will provide a platform for AFF specialists to debate and present on current aerial fighting challenges in Europe, with an emphasis on Southern and Eastern Europe/Mediterranean stakeholders.

Tangent Link are delighted to invite all stakeholders to this forum to directly engage with government experts, aerial operators, and technology providers from all over the world. The event is supported by Christos Stylianides, Minister for Climate Crisis and Civil Protection.
