FIRE-IN PROJECT ANNUAL WORKSHOP

Istituto Superiore Antincendi
Via del Commercio, Roma, Italy

FIRE-IN aims to improve the national and European Fire & Rescue (F&R) capability development process by fostering innovation in this domain and promoting cutting edge solutions to recognised operational needs.

Since the project started in May 2017, 5 thematic workshops have been organised. The practitioners from all the Europe have identified operational capability gaps and the project consortium started to analyse these first results.

During this one-day event, you will have the opportunity to have information on the priorities highlighted by the European Fire and Rescue Community and to exchange with experts on the research, development and innovation issues for disasters resilience.

AGENDA

- FIRE-IN project results presentation by thematic
 - Search and Rescue and Emergency Medical Response
 - Structure Fires
 - Vegetation Fires
 - Natural Disasters
 - CBRNE
- Workshop session on transversal issues and research and innovation priorities
- European projects on Fire and Rescue presentations
- Wrap-up
