# **GLOBAL AND REGIONAL VEGETATION FIRE MONITORING FROM SPACE: PLANNING A COORDINATED INTERNATIONAL EFFORT**

edited by Frank J. Ahern, Johann G. Goldammer and Christopher O. Justice

2001. x and 303 pages with 81 figures, of which 42 in color, and 20 tables.

Paperbound. ISBN 90 5103 140 8

Euro 70.00/US \$ 70.00

Increasing conflagrations of forests and other lands throughout the world during the 1980s and 1990s have made fires in forests and other vegetation emerge as an important global concern. Both the number and severity of wildfires and the application of fire for land-use change, seem to have increased dramatically compared to previous decades of the twentieth century. The adverse consequences of extensive wildfires cross national boundaries and have global impacts. Fire regimes are changing with climate variability and population dynamics. Satellite remote sensing technology has the potential to play an important role for monitoring fires and their consequences, as well as in operational fire management.

In response to this need as well as to respond to other needs for more rapid progress in forest observation, in 1997 the Committee on Earth Observation Satellites (CEOS) initiated Global Observation of Forest Cover (GOFC) as an international pilot project to test the concepts of an Integrated Global Observing Strategy. The GOFC program is currently part of the Global Terrestrial Observing System (GTOS). GOFC was designed to bring together data providers and information users to make information products from satellite and in-situ observations of forests more readily available worldwide. Fire Monitoring and Mapping was formed as one of three basic components of GOFC.

This book contains thirteen contributions authored by scientists who represent the most active international research and development institutions, aiming at coordinating and improving international efforts for user-oriented systems and products. These papers were initially presented at a GOFC Fire Workshop held at the Joint Research Centre, Ispra. The volume is a contribution by the GOFC Forest Fire Monitoring and Mapping Implementation Team to the Interagency Task Force Working Group *Wildland Fire* of the UN International Strategy for Disaster Reduction (ISDR).

## TABLE OF CONTENTS

### Preface

A review of the status of satellite fire monitoring and the requirements for global environmental change research

*C.O. Justice and S. Korontzi*

Satellite earth observation information requirements of the wildland fire management community

*C.W. Dull and B.S. Lee*

Towards the development of an informed global policy on vegetation fires: what role for remote sensing?

*B.J. Stocks, J.G. Goldammer, P.G.H. Frost and D.R. Cahoon*

Operational use of remote sensing for fire management: regional case studies

*J.M.C. Pereira, S. Flasse, A. Hoffman, J.A.R. Pereira, F. González-Alonso, S. Trigg, M.J.P. Vasconcelos, S. Bartalev, T.J. Lynham, G. Korovin and B.S. Lee*

Current state of synthesis initiatives in global vegetation fire monitoring

*J.G. Goldammer*

Forest fire monitoring and mapping for GOFC: current products and information networks based on NOAA-AVHRR, ERS-ATSR, and SPOT-VGT systems

*J.-M. Grégoire, D.R. Cahoon, D. Stroppiana, Z. Li, S. Pinnock, H. Eva, O. Arino, J.M. Rosaz and I. Csiszar*

Detection of fires at night using DMSP-OLS data

*C.D. Elvidge, I. Nelson, V.R. Hobson, J. Safran and K.E. Baugh*

An overview of diurnal active fire monitoring using a suite of international geostationary satellites

*E.M. Prins, J. Schmetz, L.P. Flynn, D.W. Hillger and J.M. Feltz*

Upcoming sensors for space-borne fire observation

*D. Oertel, K. Briess, H.-P. Roeser, H. Jahn, B. Zhukov, F. Lanzl, P. Haschberger, J. Gonzalo, I. F. Tourné and G. Gutman*

A review of AVHRR-based active fire detection algorithms: principles, limitations, and recommendations

*Z. Li, Y.J. Kaufman, C. Ichoku, R. Fraser, A. Trishchenko, L. Giglio, J.-Z. Jin and X. Yu*

Methods of mapping surfaces burned in vegetation fires

*O. Arino, I. Piccolini, E. Kasischke, F. Siegert, E. Chuvieco, P. Martin, Z. Li, R. Fraser, H. Eva, D. Stroppiana, J. Pereira, J.M.N. Silva, D. Roy and P.M. Barbosa*

NOAA archives of data from meteorological satellites useful for fire products

*G. Gutman, C.D. Elvidge, I. Csiszar and P. Romanov*

The fire component of global observation of forest cover: a plan of action

*F.J. Ahern, A.S. Belward, C.D. Elvidge, J. Goldammer, J.-M. Grégoire, C.O. Justice, J.M.C. Pereira, E.M. Prins and B.J. Stocks*

# **ORDER FORM**

Please mail to **SPB Academic Publishing bv**, P.O. Box 97747, 2509 GC The Hague, The Netherlands.  
Fax: +31.70.33 00 254. email: Kugler.spb@wxs.nl.

For USA and Canada: **SPB Academic Publishing bv c/o Library Research Associates, Inc.**,  
474 Dunderberg Road, Monroe, NY 10950. Telefax (845) 782 3953

Send me \_\_\_\_\_ copy(ies) of **Global and Regional Vegetation Fire Monitoring from Space:  
Planning a Coordinated International Effort**, edited by F.J. Ahern et al.,  
at Euro 70.00/ US \$ 70.00 per copy

Check enclosed (Euros drawn on a EEC bank, US dollars drawn on a US bank) in the amount of:

€ \_\_\_\_\_ / US \$ \_\_\_\_\_

Please bill  Please charge:  American Express  Eurocard/Master/Access  Visa

Account number:  Expiry date:

If payment is made by Master/Eurocard/Access, please also indicate your CVC number here:

(The last three numbers in the signature box on the reverse of your card)

Name: \_\_\_\_\_

Address (if payment is made by credit card, also indicate the address to which the card is registered):  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

All prices are quoted in Euros and US Dollars; however, the Euro prices are definitive.  
Orders accompanied by payment will be executed free of postage and handling costs.

European (E.E.C.) customers: either let us have your VAT number  
or add 6% VAT. Without this number, we are obliged to charge VAT  
and cannot change our invoice once it has been issued.
