Historically, forest management systems have tended to focus on timber utilization, which obviously unable to maintain the forest, especially for natural forests. It can be shown by decreasing the number of natural forest concessions, the low of natural forest timber production for domestic industry, as well as increasing the rate of deforestation and degradation. Sustainable forest management should be taken to decrease the impact of deforestation and forest degradation by considering social, economic and forest ecosystem functions. Recently, forest management paradigm is changing from forest management aim to timber production become forest management aim to sustainably ecosystem services and forest ecosystem functions in achieving sustainable development.

Silviculture sciences play very important role in sustainable forest management through ensuring the sustainability of forest ecosystem functions (habitat, regulation, production, and information functions), and increasing positive impact toward socio-economic in maintaining and improving forest productivity, as well as in achieving sustainable development.

Studies on forest ecosystem functions need further research, sharing and dissemination of research report among stakeholders. Department of Silviculture, Faculty of Forestry, IPB University contribute in sharing information, knowledge, innovation, as well as providing solutions to various problems and obstacles in achieving sustainable forest.

### TOPICS
- Biodiversity
- Forest fire & climate change
- Agroforestry and forest plantation
- Ecosystem services
- Non-timber forest product
- Un-even aged silviculture
- Forest degradation and rehabilitation

### PUBLICATION
Selected conference papers will be published in:
- **BIOTROPIA**: international journal Scopus indexed
- **IOP Conference Series**: Earth and Environmental Science (Scopus indexed proceeding)
- **JIPI (Jurnal Ilmu Pertanian Indonesia)**: KEMENRISTEKDIKTI accredited national journal

### CONTACT PERSONS:

*additional charge for excursion dan publication fee

**MODE OF PAYMENT**

International/National participant should use electronic transfer to:
- **Account Holder**: Ati Dwi Nurhayati
- **Bank**: BNI (Bank Negara Indonesia)
- **Branch**: Bogor
- **Account Number**: 0003093050
- **Swift Code**: BNNIDJABGR

As soon as payment is made, please mail the copy of the receipt to ictsapps.ipb.ac.id

**SECRETARIAT**

Department of Silviculture - Faculty of Forestry
IPB University
Jl. Lingkar Akademik Kampus IPB Dramaga, Bogor 16680
Phone: +62 251 8626806
Fax: +62 251 8626886

**INVITED SPEAKERS**

- **Prof. Iskandar Z. Siregar** (IPB University)
- **Prof. Nurheni Wijayanto** (IPB University)
- **Prof. Bambang Hero Saharjo** (IPB University)
- **Prof. Chairil Anwar Siregar** (FOERDIA)
- **Prof. Mohammad Naiem** (UGM)
- **Prof. Mark A. Cochrane** (UMCES)
- **Dr. Supriyanto** (IPB University)
- **Dr. Laura L.B Graham** (BOSF)
- **Dr. Samsudin Musa** (FRIM)

---

**2nd INTERNATIONAL CONFERENCE ON TROPICAL SILVICULTURE 2019**

"FOREST RESEARCH AND INNOVATION FOR SUSTAINABLE DEVELOPMENT"

**KEYNOTE SPEAKERS**

- **Prof. Johann Georg Goldammer**
  Max Planck Institute for Chemistry
c/o Freiburg University (UNU), Germany

- **Prof. Hiromi Mizunaga**
  Department of Environment and Forest Resources Science,
  Shizuoka University, Japan

- **Dr. Ir. Agus Justianto, MSc.**
  Director General of FOERDIA,
  Ministry of Environment and Forestry Republic of Indonesia

---

**TIME AND VENUE**

**Date**: September 10 - 11, 2019
**Time**: 08.00 am - 05.00 pm
**Venue**: IPB International Conference Center, Bogor
