

FIRE PARADOX – GFMC Prescribed Burning Demonstration Network Inventory Sheet

Prescribed Burning Demonstration Sites - Site Description and Objectives -		Local Site Name: 623		
Country: Russia		Region: Krasnoyarsk		Location: dark coniferous forest clearcut right bank of Yenisey river (Yenisey Ridge)
Unit No./Admin. Unit: Unza district Planning quarter # 137		Owner: Usolie leskhoz (forest management enterprise)		Site area (ha): 5
UTM zone:	UTM (x): 94° 03' E		Map / Aerial photo : o No	
	UTM (y): 57° 09' N			
First established: 2 September 1999	Area(s) burnt (ha): 5		Fire return interval (or time since last burn, or next burn planned): 180 years – average fire return interval for dark coniferous forests	
Number of plots (in case of an array of sub-plots for experimental repetitions, particular site differences or high number of operationally burned sites:.. Site burned once				
Special remarks: Ignition at 19:00				
Purpose of Treatment:				
Specific Treatment Objectives: slash removing, conifer forest regeneration stimulation				Objectives reached? Yes Slash fuels removed preparing place for sseds
Desired burn conditions to reach objectives (optional or if necessary as general prerequisite)				
Wind speed (m/s): - 0		Wind direction: -		
Relative humidity (%): 50		Soil moisture: No data		
Air temperature (°C): 15		Burn period (time of year): fall		
What problems do occur? Too much vegetating plants				
Site description				
Vegetation type (main species): mixed forest with dominating of dark coniferous species: <i>Abies sibirica, Picea sibirica, Pinus sibirica, Betula pendula, Populus tremula</i>		Annual mean precipitation (mm/a): 450-600		Mean precipitation during time of burn (mm): 0
Fuel load (target fuel) (t ha ⁻¹): 73 locally		Annual mean temperature (°C): -8		Mean temperature during time of burn (°C): 9
Fuel description: Slash (40% is gathered in piles) + forest litter + lot of vegetating plants				
Topography: flat	Slope (°) 2	Aspect: S	Altitude (m a.s.l.): 300	Soil conditions: Podsol loam
Other: Prescribed burn # 6/99 in a book Valendik et al., 2000
